## CHILD CARE EDUCATION

We believe the values and skills learned early on are vital building blocks for life. When our young people feel safe and secure they make smarter life choices in the future. They begin to explore unique talents and interests, and grow into independent, self-confident, inquisitive and enthusiastic learners.

### EARLY LEARNING

(ages 6 mos.-Kindergarten)

These programs offer infants, toddlers, preschoolers, and their families a safe and healthy place to learn foundational skills, develop relationships and build self-reliance through character development and a structured curriculum.

Children need to have time to play, make choices, problem solve and have fun. With so many demands on today's families, the Y recognizes that our parents and guardians need a reliable high-quality program in which they can be confident that their child is realizing their full potential. Our programs are led by experienced and caring staff, and we encourage parent involvement.
