# POOL PROCEDURES

Enter the facility through the front upper entrance and scan in at the Welcome Center. Your temperature will be checked and you will be asked several health screening questions. Only active Y members ages 13+ with a COVID-19 signed waiver on file will be admitted. Your membership will be reactivated in order to use the pool.

Please use hand sanitizer or wash your hands with soap upon entering the facility and maintain social distance by staying at least 6 feet away from others at all times. Keep your mask on while inside the Y. The mask should be the last thing you take off before entering the water and the first thing you put on when you get out.

You can reserve a lane up to 72 hours in advance, up to three times slots per week. If you need to cancel or reschedule your lane reservation, you can do so up to one hour in advance of your time. We will be monitoring the system. Frequent late cancellations or no shows will be contacted.

Bring your own towel and water bottle (no glass) with you. We are not providing towels or stocking vending machines at this time.

When entering the pool area please take notice of which side of the pool has the empty bench that matches your reserved lane. This is your bench and also the side from which you will enter/exit the water. Ensure that you remain at least 6ft from others and use what you need to enter/exit. For the Rooke Pool, the stairs will remain in lane 1, and for the Wallace Pool, the easy ladder will remain in lane 6 at all times.

The lifeguard will blow the whistle two times at the 40 minute mark signaling five minutes left. When the lifeguard blows the final long whistle, please exit the pool immediately to allow the next swimmer into the lane. The incoming swimmer must wait until the lane is clear.

## LOCKER ROOMS

Women and girls may use the Women's Silver Locker Rooms.

Men, boys, parents w/ children and those needing ADA accessibility may use the Family Locker Rooms. **You must change within a room, not in the common space.** The other locker rooms are being modified to comply with the current guidelines.

If you are using the locker rooms, please take a disinfectant spray bottle and cleaning towel from the welcome center and spray your area before and after use.

Thank you and enjoy your swim!
