LITE/LOW IMPACT

Arthritis Exercise

Reduce pain, stiffness, and fatigue associated with arthritis. May be done seated or standing.

Ballet

Build strength, stamina, and posture through a mix of barre and center exercises. Great for both beginners and those with more experience. Ballet slippers or cotton socks are required.

Barefoot Fusion

Improve your strength, balance, and posture with this fusion class combining elements of pilates, light weights, body weight strength, and gentle stretches.

Barre

Improve strength, flexibility, and balance through ballet-inspired moves, light weights, and other equipment. Cotton socks are recommended.

Bone Smart

Stimulate and strengthen your bones with an interdisciplinary workout.

Delay the Disease: Parkinson's Exercise

Address issues associated with Parkinson's. Studies show that movement and exercise help to alleviate symptoms. Use light weights and tools to maintain and improve strength, flexibility, and balance. May be done seated or standing with modifications based on needs.

Functional Strength, Balance and Basic TRX®

Basic functional movements, TRX®, weights, and other equipment are used to improve strength, flexibility, and balance.

Lite Cardio, Strength & Balance

Low-impact cardio paired with strength and balance movements. Great for anyone beginning an exercise routine.

Lite Total Body Fitness

Improve heart health and maintain overall strength with gentler movements, light weight training, easy core exercises, and other equipment.

STRENGTH

TRX®

Develop strength, balance, flexibility, and joint stability using body weight and a TRX® Suspension Trainer hung from an overhead anchor point.

Total Body Strength

Improve balance, core, and muscle strength with weights, resistance tubing, and other equipment.

Total Body Strength Circuits

Designed to target various muscle groups as you work your way through a series of stations or exercises each with a specific strength focus. Various types of resistance are used.

MIND & BODY

Chair Yoga

Enjoy yoga's benefits without having to get up or down from a mat! Improve balance and flexibility with chair-assisted movements. Learn mindfulness and breathing techniques that reduce stress and insomnia, and calm the nervous system.

Pilates

Improve core strength and balance, increase flexibility and enhance athletic performance.

Power Flow Yoga

(Saturday Class): Vinyasa inspired practice is a flow of poses that links breath to movement through dynamic and challenging sequences designed to build strength, increase stamina, and flexibility.

(Sunday Class): Moderate to advanced Ashtanga sequences and flow asanas that relax the body, mind and soul.

Yoga

Breathing, relaxation, and postures.

CARDIO

Cycle & Strength

30-40 min. of cycle followed by a focus on strength and abs all in one great class!

Kickboxing

High-energy workout builds strength and stamina by blending basic punching and kicking combinations with core conditioning.

Focus on strength, speed, and endurance. An energizing workout sure to raise your heart rate! Choreographed to great music!

Zumba®

Engage your entire body in this lively dance fitness class with great music and a Latin flair!

COMBO/HYBRID

Tabata

Tabata intervals (20 sec. work, 10 sec. rest) focus on exercises that build strength and cardio endurance. Intensity may be increased by adding weights.

Boot Camp

High intensity, full body workout designed to build strength, endurance and agility. Inspired by military training, class involves a combo of cardio, strength and bodyweight exercises done in quick succession to maximize fitness benefits.

Cardio & Strength

High Intensity Interval Training (HIIT) format class moves swiftly between cardio, strength, and core exercises.

Cardio/Strength/Core Intervals

Enhance cardio endurance and muscular/core strength with timed segments of these 3 vital components of fitness.

R.I.P.P.E.D.®

Resistance, Intervals, Power, Plyometrics and Endurance training are used to challenge cardio and endurance levels.

Rumble®/Kickboxing & Strength

30 min. of Rumble (cardio martial arts by R.I.P.P.E.D.®) or kickboxing followed by 30 min. of strength. Come for one segment or both!

YOUTH AQUATICS

Lessons are 30 min. in Rooke Pool unless noted: » = 40 min. • = Wallace Pool

SWIM LESSONS

Our swim lessons meet swimmers at every level, building skills, confidence, and a sense of accomplishment as they progress at their own pace. Free swim assessments available.

Note: Child is required to wear a swim diaper if not 100% potty trained.

Parent/Child: Stage A

Instructors use songs and games to encourage students and parents to learn skills, explore the environment and equipment used in swim lessons, and learn how to be safe in and around water.

Parent/Child: Stage B

Introduces and enhances understanding of the aquatic environment. Instructors guide students through a variety of skills including floating, the progression of going underwater, using swim equipment, forward underwater movement, arm and leg movements, and the fundamentals of self-rescue and water safety.

Stage 1: Water Acclimation

Child is still new to the pool. The purpose of the class is to increase comfort with underwater exploration and introduce basic self-rescue skills with the instructor's assistance.

Stage 2: Water Movement

Child can independently submerge underwater and swim a few feet with or without floatation. Focuses on body position, front/back float, forward underwater movement, rolling from front to back, directional change, and basic self-rescue skills.

Stage 3: Water Stamina

Child can swim, roll to a float and return to swim width of the pool (20 ft). Continues to focus on self-rescue skills while learning to swim longer distances, tread water, and retrieve an object from the bottom of the shallow end.

Stage 4: Stroke Introduction

Child can swim/float the length of the pool (60 ft). Student develops proper front crawl including rudimentary rotary breathing, back crawl, breaststroke kick and butterfly kick. The water safety conversation continues and is reinforced through skills like treading water and elementary backstroke.

Stage 5: Stroke Development

Child can swim 50 yds. of each proper front crawl, back crawl, breaststroke kick and butterfly kick. Improve upon all major competitive strokes. The water safety conversation continues and is reinforced through treading water and sidestroke.

Stage 6: Stroke Mechanics

Child can effectively and efficiently swim 100 yds. of any or combined strokes. Student refines stroke technique, develops endurance for competitive & non-competitive strokes and learns flip turns.

Proof confirming middle school status (report card, school ID, etc.) required. at time of registration.

CHILD CARE EDUCATION

EARLY LEARNING

Programs for children ages 6 months–5 years provide a caring, safe and healthy place to learn foundational skills, develop healthy trusting relationships and build self-confidence and self-reliance. Children develop gross and fine motor, cognitive, social/emotional and language skills. All programs follow the Creative Curriculum, a nationally recognized framework rooted in educational philosophy and theory as well as in practice. Full and half-day programs are available year-round or for the school year.
